Batch NO: 21

Project Name: **Home Services**

What (Problem): Difficulty in finding the maids for domestic purpose, renovation services, Electrical Repairs, Other services.

Solution: This is a website which consists of all details of workers who works on problems of different sectors like domestic, electrical, renovation, education etc. and solve them with their service. It acts as a platform which provides details of maids in different locations who are currently available to help in your household works, charges for their work, their availability timings etc.

This website helps in finding people to work on different household problems like cleaning, washing, plumbing, electrical and so on.

It makes easy for people to find a great supportive and friendly worker for different needs in specific area as it ensures for it.
